

ATLAS | HOLDINGS

Atlas Holdings has an explicit goal that all operating companies achieve world class safety performance.

- We believe a healthy and safe work environment is a fundamental right of all employees.
- We believe all accidents are preventable.
- We believe companies with world-class safety performance will achieve business excellence through the engagement and empowerment of employees.

The governing philosophy of Atlas is to promote an entrepreneurial spirit; therefore, Atlas expects management of each company to individually develop the plans necessary to achieve world class safety as guided by the Atlas Safety Principles.

Atlas Safety Principles:

- 1) Safety is fundamental to everything we do.
- 2) A safe workplace is everybody's responsibility and safe behavior is a condition of employment.
- 3) Individuals are first accountable for their own safety and then the safety of others.
- 4) Investigation and communication of incidents and near misses is necessary for driving improvement.
- 5) Facts, data, processes and systems are critical for continuous improvement and to create best practices.
